Summary

Aspiring Full Stack Developer with a strong foundation in computer science fundamentals and a passion for building scalable and efficient web applications. Proficient in React, React Native, Node.js, JavaScript, and REST APIs, with experience in developing responsive and user-friendly solutions. Strong problem-solving abilities supported by knowledge of Data Structures and Algorithms, along with a continuous learning mindset.

Education

Aditya College of Engineering and Technology

Bachelor of Technology in Computer Science and Engineering (GPA: 9.10/10.00)

Sep 2023 - Present

Surampalem, Andhra Pradesh

Sri Sai Aditya Junior College(MPC)

Intermediate(Percentage: 97.2)

2021 - 2023

Kakinada, Andhra Pradesh

Experience

Full Stack Development Intern | [Certificate](#)

Technical Hub Private Limited

May 2025 – June 2025

Kakinada, Andhra Pradesh

- Selected through a competitive process to work on a real-time Full Stack Development project using React Native.
- Collaborated in a team environment to implement front-end and back-end functionalities for cross-platform applications.
- Gaining hands-on experience in building scalable, user-friendly interfaces and integrating APIs in a live development environment.

Projects

CodeDelight – Gamified Coding Education Platform | [github](#) | [HTML](#), [CSS](#), [JavaScript](#), [REST API](#)

- Developed an interactive coding platform for FSD and DSA learning with quizzes, compilers, and games.
- Implemented level-based quizzes with stars, coins, unlock systems, and progress tracking using localStorage.
- Integrated Monaco Editor-based compilers and created a clean, responsive UI.

Multilingual React Web Application with RTL Support | [github](#) | [React](#), [i18next](#), [JavaScript](#)

- Built a React-based web application with dynamic multilingual support using react-i18next.
- Enabled automatic RTL/LTR layout switching for seamless Arabic and English experience.
- Designed a scalable UI architecture with persistent user language preferences.

EASE – Student Service Web App | [github](#) | [HTML](#), [CSS](#), [JavaScript](#)

- Created a responsive platform for appointment booking, queue tracking, slot scheduling, and real-time alerts.
- Developed a custom Help Center and waiting time estimation feature to enhance user experience.

Technical Skills

Languages: C, C++, Python, Java.

Technologies: HTML, CSS, JavaScript, React, React Native, Node.js.

Tools: VS code, Git, GitHub, Docker.

Database: SQL, MongoDB.

Concepts: DSA(C++), OOPs, DBMS, OS, CN.

Certifications: [MongoDB Associate Developer](#), [Red Hat System Administration](#), [Oracle Java Foundations](#), [GitHub Foundations](#), [IT Specialist HTML & CSS](#), [Python Essentials 1](#), [Programming Essentials in C/ C++](#).

Achievements

- Secured 1st Prize in Project Space 8.0 among 160+ teams and 900+ participants for developing “Smart Exam Evaluator”, an AI-powered automated examination evaluation and analytics platform.
- Coding Profiles: [Leetcode](#), [HackerRank](#), [CodeChef](#), [GeeksforGeeks](#), [Codeforces](#).
- Solved 400+ problems across various Competitive programming websites.
- Earned SQL certifications on HackerRank with a 4-star proficiency rating.
